

March 2023: Casa Rossa Gardens and Sherlin Alpacas

Our outing in March was to Casa Rossa gardens at West Melton and then to Sherlin Alpacas.

The gardens were started many years ago from an old shingle pit covered in scrub and wattle. Now it is a Garden of International Significance with a 5-star rating. Most trees are deciduous and there are many special features scattered throughout.

We went on to have lunch at Sherlin Alpacas where we were told a bit about the animals which come from Peru, and then met and mingled with the mothers and babies.
